

Discussion of «Marginal pricing of transmission services: a comparative analysis of network cost allocation methods»

H. Rudnick; F.J. Rubio Odériz; J.I. Pérez Arriaga

Abstract-

H. Rudnick comments on the paper by F.J. Rubio-Oderiz et al. (see *ibid.*, vol.15, no.1, p.448-54, 2000). They discuss the Stanford Energy Modeling Forum set of principles to assess the performance of transmission pricing and ask the authors for their full rating of the proposed methods under the Stanford framework. The original authors reply to the comments.
