

# **The impact of Bologna on engineering studies: comments on the Spanish case**

F. Cuadra García

## **Abstract-**

**This paper presents the current status of engineering studies in Spain, including the structure and professional profile of the existing degrees, and all the specific circumstances – social, legal and political - that complete the scenario. The impact of Bologna on this scenario is still uncertain, but in this paper the two main options - ‘smooth evolution’; and ‘deep revolution’ - are described and analysed.**

**Index Terms- Bologna Declaration; degree structures; engineering studies**
