

# **Facilitating the integration of renewables in Latin America: the role of hydropower generation and other energy storage technologies**

R. Moreno, R.S. Ferreira, L.A. Barroso, H. Rudnick, E. Pereira

**Abstract—** It is well known that storage facilities can provide value to various electricity sectors through several services, which we group into five main classes.

**Index Terms—** Hydroelectric power generation, Reservoirs, Wind power generation, Investment, Silicon carbide, Power system stability, Solar power generation, Energy storage
