Our institute is an active member of the international research community.

Research groups and activity sectors

- SMART (Safety and Reliability Management and Testing of Infrastructures)
- RESEARCH (Research and Development of New Technologies)
- INNOVATION (Innovation and Entrepreneurship)
- NETWORK (Connecting People and Knowledge)

Breaking ground in new frontiers

Innovative solutions for a sustainable future

Combining the real concerns of industry with state-of-the-art approaches has been a key factor in IIT’s success.

People from IIT

- Prof. Jayant Baliga, recognized for his contributions to the field of power electronics
- Dr. Arvind Gupta, known for his work in renewable energy systems
- Prof. Uma Devi, recognized for her contributions to nanotechnology

Sharing knowledge and professional experience

- Regular seminars and workshops conducted by industry experts
- Collaborative research projects with leading universities worldwide
- International conferences and forums

Innovative learning environment

- State-of-the-art laboratories
- Cutting-edge research facilities
- Access to global research networks

Student experience

- Personalized mentoring and guidance
- Opportunities for international exchange programs
- Access to top-notch research opportunities

"In my 20 years of teaching at IIT, I have seen an exponential growth in student enrollment which is a testament to the institute’s reputation and excellence." 

Dr. Sadhana Nayak, Dean of IT Research & Innovation

"I am proud to be associated with IIT, which has always been on the forefront of innovation and excellence in technology education." 

Dr. Prabhat Garg, Former Director of IIT
Combining the real concerns of industry with state-of-the-art approaches has been a key factor in IIT's success.

Research and professional experience
- Research experience in various fields, including materials science, environmental science, and biotechnology.
- Professional experience in the development of new technologies and products.
- Collaboration with international partners on research projects.

People from IIT
- Alumni network: a community of professionals working in various fields, from technology to medicine to arts.
- Events and networking opportunities, including career fairs, alumni meetups, and industry conferences.

In the future, IIT aims to expand its research and development focus on sustainable technologies and renewable energy solutions.

Our institute is an active member of the international research community.

In the center of the story, we have an enthusiastic team ready to guide you through your journey at IIT, offering support and resources to help you thrive.
